## Make sure Florida lawmakers hear your voice on the issues impacting the PEO industry.

The PEO industry has scored some major victories, promoting a pro-business legislative agenda and winning important legal business options for PEOs.

Even more often, our victories have been measured in what others haven't won. We have held the line against overreaching, confusing insurance regulation, taxes on PEO services, and onerous PEO license requirements.

But today, is a new day. Individuals who have companies that compete with the PEO industry in the marketplace disparage PEOs in an attempt to get laws passed that benefit their companies. It's critical that lawmakers understand the value your company provides to Florida's economy.

As part of the Florida PEO CEO Legislative Summit you'll have the opportunity to meet with the leadership from both the House and Senate as well as leaders within the Governor's Office. Plus, we will visit the Capitol to meet with key decision makers from throughout the state, including your community, to communicate the value Florida's PEO industry provides employees, employers and government.

You'll receive a full briefing on the new legislative proposals, talking points and an outlook of what to expect for all of the issues impacting your company.

Make your plans to be in Tallahassee on February 13-14, 2017 for the Florida PEO CEO Legislative Summit.
